K-Dee II Bed Series

K-Dee II Classic

K-Dee II Standard

Our most versatile bed offering - it features an attractive, warm design which is lightweight and extremely easy to assemble. Now available in Single or King Single.

Product Specs

Features

The K-Dee II Bed Series is the second generation of the K-Dee Original Bed. It comes fully featured, with powered five-way adjustment, including height, backrest, kneebreak and leg rest. It is compact, lightweight and easy to assemble and disassemble. The Classic Bed features attractive enclosed wooden bed ends and can be fitted with a battery backup. For taller users, an optional length extension can be added to increase the length by 200mm. Both beds are available in either Single or King Single sizes.

- Beech wood grain panels at bed ends on Standard Bed
- Enclosed beech wooden bed ends on Classic Bed
- Easily assembled and disassembled
- Optional transport bracket for easy storage and transport
- Handset with lockout function
- 4-section pull-apart bed,
- Full power adjustment including Trendelenburg and reverse Trendelenburg
- Dewert actuators
- Enclosed, individually locking castors
- Dual supports at head end for optional IV pole and self-help pole
- Optional full length wooden or metal rails, or 3/4 collapsible rails
