

## Cutlery

### **Adaptive Utensils with Built-Up Handles**

The latex-free rubber handles provide natural slip resistance and are 1.5" wide to ensure a firm hold during mealtime. The flexible ribbing along the handle helps accommodate different grip positions, aiding those with weak grasps.

### **Wide Variety of Utensils to Choose From**

The stainless steel utensils are attached to 4" long, built-up handles and can be safely washed in the dishwasher up to 125-degrees for convenience. Sure Grips is available in a wide variety of utensils including: teaspoon, tablespoon, fork, knife, spoon, soup spoon and more. The adaptive feeding utensils are designed for both professional and personal use.

### **Offers Greater Independence at Mealtime**

Easy to grip and manipulate, the Sure Grip Utensils offer individuals greater independence and comfort at mealtimes. The combination of flexible ribbing and a built-up handle offers more control so that the utensil reaches the mouth without spilling any food. Each of these adaptive utensils are purchased separately or as a retail packed set.

## Specifications

- Ribbed handle enables different grip positions for users with weak grasp
- Offers more control so the utensil reaches the mouth without spilling food
- Stainless steel utensils are dishwasher safe up to 125 degrees
