

Suprem Light Maxi

Lille Suprem Light Maxi shaped pads are ideal for active women who want discreet protection for light urinary incontinence (losing a few drops). Lille Lights are more absorbent than a period liner, are thin and unnoticeable underneath clothing. The adhesive strip secures the pad inside the users own underwear. The incontinence pads are infused with aloe vera to prevent and calm skin irritations. You will feel secure with odour control and anti-leakage protection.

- Odour Control - Locks away odour for maximum freshness
- Anti-Leakage Protection - Integrated anti-leak cuffs made of waterproof material helps to prevent side leakage, maintaining security and discretion
- Lille Air System - 100% breathability across the entire surface area of the pad, enabling the air to flow to maximise skin integrity
- Hypoallergenic - Sensitive to your skin, reducing the risk of allergies and skin irritations
- Aloe Vera - Infused with aloe vera to prevent and calm skin irritations
- Latex Free
