

Suprem Pants Maxi

Suitable for men and women, the Lille Suprem Pants Maxi pull-up is an ideal solution for managing urinary incontinence in active and mobile people. Combining comfort and discretion, the disposable pants contain Lille Air System technology that provides 100% breathability which reduces the occurrence of rashes, allowing your skin to breathe and stay dry. Can be worn like any regular underwear and taken off by tearing the sides. The incontinence pants have a wetness indicator that turns blue depending on the saturation, indicating the need to change. There is an adhesive strip to indicate the back and can be used as a disposal tape to compact the pants.

- Odour Control - Locks away odour for maximum freshness
- Wetness Indicator - Acting as a guide to when to change the product
- Anti-Leakage Protection - Integrated anti-leak cuffs made of waterproof material helps to prevent side leakage, maintaining security and discretion
- Lille Air System - 100% breathability across the entire surface area of the pad, enabling the air to flow to maximise skin integrity
- Hypoallergenic - Sensitive to your skin, reducing the risk of allergies and skin irritations
- Soft Feel - Soft elastic waistband, giving a more discreet and comfortable feel
